★★★★★ **Amazing Go Kart Experience!**

Reviewed in the United States on June 19, 2019

Color: blue-T581*kart | [Verified Purchase](#) | [Early Reviewer Rewards \(What's this?\)](#)

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It was a great surprise.

★★★★★ **Fun Hoover for the family !**

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★★★★☆ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581*kart | **Verified Purchase**

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

Amazon? Help?

★★★★★ **Sturdy Hoverboard and Great Customer Service**

Reviewed in the United States on January 16, 2020

[Verified Purchase](#)

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ **great for children,**

Reviewed in the United States on June 4, 2019

[Verified Purchase](#) | [Early Reviewer Rewards](#) (What's this?)

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there.

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. But for my 7 year old daughter it is perfect. My daughter hopped right on the hover board and took off right away, she spins around

goes forward and backwards with what appears to be no effort she loves it!! I am 36 years old and

★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 | Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

cool features. Would definitely buy again.

73 people found this helpful

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

★★★★★ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581*kart | Verified Purchase

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

★★★★★ **Sturdy Hoverboard and Great Customer Service**

Reviewed in the United States on January 16, 2020

Verified Purchase

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ **great for children,**

Reviewed in the United States on June 4, 2019

Verified Purchase

Early Reviewer Rewards (What's this?)

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. But for my 7 year old daughter it is perfect. My daughter hopped right on the hover board and took off right away, she spins around goes forward and backwards with what appears to be no effort she loves it!! I am 36 years old and

★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

- Question:** For everyone that gave this hoverboard 4 to 5 stars, how long have you been using it without any problems?
- Answer:** 6 months. Daily use on hard surfaces and grass, no issues. Good power, good app, great batteries. If you want the best, stop here. This board is not a toy! Well build, and can easily handle a seat attachment. Rides higher than most other boards.

Answer: Does it still last long when riding? My son's does that but I notice that it's blue on one side and red on a other. I dont think it has to do with the charge.... His lasts several weeks before needing to recharge. He just rides off and on, not long rides.

Answer: no hoverboard can be carried on an aircraft. EVEN if the battery power is below TSA and FAA regulation they all say the same thing "it down to the individual airline". The airlines say specifically no hoverboards. I wrote this: <https://thetechieguy.com/can-travel-flight-electric-skateboard/>

We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!!

★★★★☆ **Great Product**

Reviewed in the United States on November 27, 2018

Color: black | **Verified Purchase**

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board is pretty great.

★★★★★ **Best Hoverboard on the market**

Reviewed in the United States on September 12, 2018

Color: black | **Verified Purchase**

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P..s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

Problems with Shaking and stopping

Reviewed in the United States on October 9, 2018

Verified Purchase

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

Super fun!

Reviewed in the United States on August 9, 2018

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!
